

**QUARTERLY PROGRESS REPORT – SECOND QUARTER 2009
STANDARD CHLORINE CHEMICAL COMPANY, INC. SITE
KEARNY, NEW JERSEY
ADMINISTRATIVE CONSENT ORDER EXECUTED ON OCTOBER 20, 1989**

Activities Initiated or Continued During the Reporting Period

IRAW design and permitting tasks continued.

Preparation of waste classification requests for materials likely to be produced during implementation of the IRAW continued.

A Phase IA Cultural Resources Survey was initiated.

Demolition of the non-process buildings is on hold pending resolution of materials management issues.

Activities Completed During the Reporting Period

Preparation of a "Like vs. Like" demonstration in support of the use of EPA's Area of Contamination policy was completed and submitted to NJDEP on April 3, 2009. This submittal was later revised to correct a units conversion error and was resubmitted to the NJDEP on June 11, 2009.

Implementation of certain Supplemental Remedial Investigation (SRI) activities outlined in the December 2008 SRI Workplan was completed.

A Wetlands Delineation Report was completed and submitted to the U.S. EPA and U.S. Army Corps of Engineers on May 8, 2009.

A Final Engineering Evaluation/Cost Analysis was submitted to U.S. EPA on May 21, 2009.

Activities to be Initiated or Continued in the Upcoming Reporting Period (Third Quarter 2009)

Public Outreach and Notification required by N.J.A.C. 7:26E-1.4 will be initiated and completed.

Removal of containerized materials will be initiated pending receipt of all waste classification determinations requested in the January 13, 2009 submittal.

Activities to be Completed in the Upcoming Reporting Period (Third Quarter 2009)

A Work Plan for Closure of Building Openings was submitted to the U.S. EPA on July 3, 2009.
